

TARIK VELIĆ

Web developer

CV

About me

I am a passionate enthusiast with diverse interests: graphic design, programming and basketball refereeing. With a background in computer science education, I possess a broad range of skills that inspire me to seek new challenges and achieve outstanding results. I am open to learning new technologies and approach every project with dedication and responsibility. I am ready to leverage my creativity, analytical skills, and knowledge to make a positive impact in every opportunity that comes my way. In addition to my passion for the mentioned interests, I enjoy teamwork and collaboration with others, but I am also a strong solo player, capable of taking responsibility and working independently whenever necessary.

Experience

Dec 2023 – Present

Shop Circle/HulkApps I Zmaja od Bosne 74, Sarajevo 71000

Software Developer

As a software developer in this company, I have primarily worked on building applications for Shopify. In my current role, I have served as the sole frontend developer using React for a major application, ensuring a seamless user experience. Additionally, I have worked on the backend using Node.js to create robust and scalable solutions. My responsibilities have included designing, developing, and maintaining features that enhance the functionality and performance of our Shopify applications.

Apr 2023 – Jul 2023

Ant Colony I Kolodvorska 12, Sarajevo 71000

Ant Colony Internship

During my internship at AntColony, I worked as a Full Stack Developer, focusing on mastering React for frontend development and building robust APIs using Node.js for the backend. I followed the concept created by the design team, resulting in visually appealing and user-friendly interfaces while ensuring data security measures were implemented. The dynamic nature of the internship exposed me to various aspects of software development, including software architecture, RESTful APIs, and agile project management methodologies. This experience provided me with adaptability to changing project requirements and the ability to effectively solve complex problems. Working with a talented team at AntColony gave me invaluable insights and mentorship, fostering a passion for delivering innovative solutions.

Mar 2022 – Jun 2022

Zira I UNITIC Business Tower, Fra Anđela Zvizdovića 1

Zira Internship

During my internship at Zira Talent Academy, I worked on developing websites for movies using both frontend and backend development techniques. My main goal was to provide users with a simple platform where they could browse various movies and filter them based on different criteria. We started by focusing on the backend aspect of the website, utilizing APIs to facilitate communication between frontend and backend components. I also ensured that all website functionalities were scalable and secure, which is crucial in web application development.

Overall, my internship experience at Zira Talent Academy was incredibly valuable, as it provided me with practical experience in web application development.

○ Jul 2021 – August 2023

Majestic Games I East 45, Abu Dhabi Island, Abudhabi, AE

Graphic design

I work as a freelancer for Majestic Games, specializing in mobile game development. As a graphic designer, I create diverse elements for games, including characters, animations, and backgrounds. I also design assets for social media, user interfaces, and user experiences. Thanks to my creative approach and the use of cutting-edge technologies, my designs bring innovation and aesthetic pleasure to players. I take pride in collaborating with the Majestic Games team to fulfill their mission of creating outstanding gaming experiences.

○ Dec 2019 – Present

Magaza I Ćurčiluk veliki 20, Sarajevo 71000

Dino Merlin Assistant production managers

I was deeply involved in Dino Merlin's production, focusing on scenography, stage effects, equipment logistics, and stage setup. Additionally, I served as a dedicated roadie for Dino's band. Collaborating closely with the creative team, I brought stage designs to life, harmonizing seamlessly with Dino Merlin's artistic vision. I managed lighting, effects like smoke machines, confetti cannons, and more for dynamic performances. As a roadie, I ensured instrument setup, technical coordination, and optimal sound quality. Moreover, I orchestrated equipment transportation and setup, contributing to flawless execution. Overall, my multifaceted role significantly enhanced the concert experience and contributed to Dino Merlin's captivating performances' success.

○ Sep 2019 – Present

Sarajevo Canton Basketball Association

Basketball referee

After 12 years of playing basketball, I have decided to transition to basketball refereeing. I want to bring my passion and knowledge to the court as a referee, staying close to the sport I love and promoting fair and just play. It is a challenging but incredibly fulfilling new path for me. I am contributing to the development of young talents and directly impacting the basketball community. Each game brings new challenges, but also joy knowing that I have contributed to a fair game and a positive experience for all participants.
